

In the 2003 book, “Purple Cow: Transform your Business by being Remarkable”, Seth Godin talks about the necessity of standing out, being different and doing something remarkable. Something worth talking about. CSS has built our reputation on providing the highest level of customer service to both our Clients and Associates. We want every one of our employees to be a Purple Cow! Because wouldn’t you talk about a Purple Cow if you saw one?

Help us find our next Purple Cow! Nominate a CSS Associate or Corporate Employee by emailing purplecow@contemporarystaffing.com with the employee’s name and the reason they deserve the award! Monthly winners will receive a prize worth \$200.
